It is a social experience for anyone who yearns for dancing to multidimensional, activating and inspiring music. Most would agree that dance is a beautiful way to cultivate community, connect with pure joy and celebrate life and freedom. Spiritainment adds consciousness expanding meditations and group energy work to this unique dance experience.

A sacred space is created for a conscious group of people who love to express themselves through dance and sound frequencies or meditation in a healthy and safe setting. People can hold space for each other as everyone expresses powerful and unconditional self-love and deepen one's connection with the higher self through ecstatic movements of dance or simply being in a meditative state. Therefore this beautiful setting induces a state of wholeness, peace, balance and harmony and ultimately feeling of pure oneness with everyone and the universe.

This event has been held at different places around the world with the collaboration of local artists, live musicians and everyone else who loves to contribute their most passionate gifts and talents. **Join us for a truly transformational and multidimensional experience!**

Testimonials

"I highly recommend DJ Solar Dragons' (Yves) music to everyone who would like to experience this multi-dimensional, expanded state... The trick is to listen to his mixes at least 45 minutes... until something shifts in your consciousness... I finally got what he was talking about after attending his dance event several times... and last night was one of the most extraordinary and beautiful journeys I have taken so far... I was led into the ocean with dolphins, whales and mermaids in their light body and received gifts... flying on an amazing golden liquid fire-dragon... seeing my huge light body as a star being and traveling to outer space and being on a council with star family inside this amazing light ship... meeting my star mother... What's special about this journey was everything was so vivid in amazingly clear colors... and like watching the most gorgeous movie in fast paced speed..." (Eunjung C., Denver / USA)

"Thank you for this wonderful and energetic dance floor night at the Celestine Summer Camp. After so many years, a vision came into manifestation to me: to dance in this wonderful pyramid room, including this initiated amazing sky of stars. Never before in my whole life, I felt so young and timeless in the same moment. And now you are gifting me additional bliss through your music ... it resonates exactly with my wavelength and to my energy. I wish very much that you would visit again to share such high energy and invite us to live it out, in a pyramidal way, so to speak. I thank you with the twinkle of my eyes and the warmth of my heart!!!" (Wilfried W., Wangen im Allgäu / Germany)

"Hailing from Europe, DJ Solar Dragon (Yves Nager) is one of the smoothest of the smooth, soulful, talented DJ's! If you have never heard him spin before, you do not want to miss this. His psychedelic, ambient chill grooves will guide you into a highly connected state of blissful movement, increasing in tempo to peak states of ecstatic dance as you drop into soulfulness..." (Queen Y., Denver / USA)

"Thank you very much for your link to Soundcloud, I am listening right now "Spiritainment 2013". It's very amazing, great tracks perfectly mixed. You were always a DJ who had the gift to match and mix tracks incredibly fast, and you have a feeling for good and enthralling sound! No wonder I still like what you release." (Stefan D., Zurich / Switzerland)

"Wow what a magical evening last night! I met you at the end of the dance. I would love to be in touch and find out more about you. So magical! I couldn't stop dancing and was totally satisfied by the dance." (Katie M., Denver / USA)

"Your music is simply amazing. It carries one to a different space and has many beautiful levels and rhythms to enjoy dance. I didn't not want the music to stop." (Simona M., Boulder / USA)
